- No SAM station abort of setup for stations without SAM➔ Edit out the line containing sam_config from : /d0dist/dist/releases/p11.07.00/ups/D0RunII.table
  - New release will have the fix
- Two sites are at various stages
  - Korea U.: Phase III ➔ Hit open port issue with SAM
  - Rice U.: Phase II
- DØRACE VRVS Testing Friday, May 31, very successful
  - VRVS Support team helped out through both the sessions
  - 9am session: 8 institutions
  - 1pm session: 12 institutions
  - Learned a few lessons:
    - We can post documents from a VNC server to everyone participating in the meeting
    - Better to use headsets with mic to minimize feed-back
   - Mute your mic when not in use
